

# Top 5 Reasons You Need *ergo*<sup>®</sup>

## 1 No Upfront Costs

*ergo* eliminates the typical PBX system start-up costs which allows you to focus on other business needs.

## 2 State-of-the-Art Phones

We provide a range of phone options to suit your business needs, including desktop, conferencing and cordless devices that support advanced business call features—all with convenient, large backlit displays.

## 3 No Maintenance

Blackfoot does all the work by setting up and maintaining your phone system. We own, host and maintain all the equipment, plus we manage your software upgrades from the Blackfoot campus which reduces the overall costs for your business.

## 4 Phone Service Included

Our *ergo* solution includes both advanced phone sets and local phone service (dial tone) which simplifies your business and saves you money.

## 5 Virtual Receptionist

We can provide you with an optional virtual receptionist feature including an automated directory which allows callers to direct themselves to a certain extension or department giving customers immediate service when you're not available.

*Ask about our current promotion to receive this feature FREE for a year!*
